The proposed Scheme covers routes of (1) Panaji to Margao & vice versa, via Cortalim and Zuari Bridge. (2) Panaji to Vasco & vice versa, via Zuari Bridge and (3) Margao to Vasco & vice versa, via Cortalim, which are the most important trunk routes in the State of Goa connecting the capital city of Panaji to the cities of Margao and Vasco where major economic activities of the State are located. The passenger flow on these routes is quite substantial. The present system of parallel operation of Kadamba Transport Corporation's buses, along with private operators have a number of disadvantages; the important being, the unhealthy competition and related problems such as overloading of private buses, constant violation of permit conditions by private bus operators by non-issue of tickets to commuters, non-wearing of uniforms by conductors/driver, delay in departure, non-operation of vehicles on Sundays and Holidays, etc. Another important drawback of the present system is gross under utilisation of private buses on these routes, so much that, the private buses operate only around 180 to 200 kms. per day as against the average of 250 kms. by the Kadamba Transport Corporation buses. Under utilisation of buses is a waste of resources.

The Konkan Railway connecting Bombay to Mangalore is expected to be fully operational at any time and Margao being the centrally located Railway Station, an efficient road transport service connecting Margao to other cities of Panaji and Vasco is absolutely necessary for the overall development of the State.

The Kadamba Transport Corporation Ltd. is having well set up infrastructure facilities, with four well equipped depots and one Central Workshop equipped with advance facilities for maintenance of its buses. The Corporation is also having well qualified technical staff like Engineers to look after the maintenance of buses. The Corporation is having a fleet strength of 341 buses. The Corporation maintains relief buses to meet any eventuality in the day to day operation of buses.

The Corporation proposes to run Stage Carriage Services with Luxury Buses, Ordinary Buses and various services including limited stop/Non-stop and point to point service for the benefit of commuters. For the convenience of daily commuters, the system of season tickets would also be introduced. Depending upon the need of commuters, early morning and late night services would also be introduced and all necessary steps will be taken to provide an efficient, adequate, economical and properly coordinated services to the commuters, and as such, the proposed scheme is in the interest of general public.

(15) Any other information:—

The Kadamba Transport Corporation Ltd. operates a number of interstate Stage Carriage services connecting Margao, Panaji, Vasco, to all the important towns/places in the neighbouring State of Karnataka and Maharashtra. The Corporation has standing arrangement with the Maharashtra Road Transport Corporation and the Karnataka State Road Transport Corporation for parking, maintenance and other facilities in their Depots/Workshops.

(16) Any other information the Undertaking desires to submit:—

The Government of Goa has entrusted the management of all the Bus Stands in the State of Goa to the Kadamba Transport Corporation Ltd. The Corporation has till now provided necessary facilities to the passengers in the form of cloakroom, ticket counters, toilet facilities, lighting, drinking water, etc. for the benefit of the commuters.

By order and in the name of the Governor of Goa.

K. N. S. Nair, Director of Transport and Ex-Officio Joint Secretary.

Panaji, 7th November, 1997.
